

Saints of the Month

1. Assign individual children or groups of children one of the remaining months of the school year. Have the children research and list Saints whose feast days fall within their given month. They can use the Internet or other resources you provide for this purpose.
2. Invite them to choose a Saint from their list and write a report about him or her. Be sure that they place the date of the Saint's feast day underneath the Saint's name. Have them draw a symbol or picture of the Saint to accompany their reports.
3. Each month display the reports for the Saints of that month and celebrate them during the class closest to their feast day.
