

Making a Word Web

1. Distribute blank paper to the children.
2. Tell the children to print the word *conscience* in the middle of the page.
3. Ask the children to think of the different helps God gives us to form our conscience—grace, the virtues, the Holy Spirit, the Church, our parents, the Bible, thinking before acting, talking to trusted adults, and so forth.
4. Each time the children think of a help from God, such as praying, have them draw a line from the word *conscience* and write it on the line.
5. Encourage the children to think of at least five things that help us to form our conscience.
6. Afterward, invite volunteers to share their word webs with the class.
