

Human Bingo

As your teacher directs you, move around the classroom and ask the questions in the boxes of your classmates. As each person responds, write his or her name in the box, and any other information the box calls for. When you have completed every possible box, call out “Bingo!” and move to one side of the room to wait for others to finish. Then each of you can tell the class three things you learned about your classmates.

Played on a sports team this summer [name sport]	FREE	Has a younger brother or sister.	Was born in another state [name state]	Has always gone to this school
